Menu varies daily. Ask staff for details.

This SAME-DAY service is being offered *in addition to our normal in-store hours at the farm stand*. Ordering is EASY:

TO PLACE YOUR ORDER: **Call 603.926.9044**

- We are accepting orders between **9a to 4p daily**
- Orders will be available for pick-up from **10a to 5p daily**
- Once your personal shopper gathers your items, s/he will call to verify order, inform of any unavailable items, collect credit card payment info and confirm pick-up day/time.

The health and well-being of our guests, staff and community remains our top priority.

## PLEASE NOTE:

Due to EXTRAORDINARY DEMAND for Call-In Orders with Curbside Pick-Up during the COVID-19 Pandemic, we can only physically pick and fill a certain number of orders per hour based upon our staffing and stock availability. Please understand that this offered service is a whole new way of conducting business for our farm and it is an IMPERFECT situation. Just know that all of us here at Applecrest are doing EVERYTHING we can to help serve the community in this time of crisis.

There are a few things YOU can do (and should know) to help our farm best fulfill EVERYONE'S needs:

- If trying to reach the farm stand to place an order during regular business hours and we do not answer the phone, it is because we are assisting other guests. Please do NOT leave a message. Your best chance of reaching a live staff member is to simply wait some time and call back. Don't worry, we ARE here and are happy to help!
- Food supply chains and vendor deliveries have been SEVERELY disrupted as a result of the pandemic. While we're able to maintain decent inventory across most all categories, there may be noticeable gaps and shortages. This varies by the day and the hour.
- NOTE: Our provided list of "best sellers" is simply a guide. We typically carry over 3,000 unique fresh produce and grocery items and always endeavor to have all available.
- When calling-in:
  - Please have a pre-prepared list of desired items.
  - Understand we are unable to confirm pricing and/or availability at time of call-in. Just know we will fulfill your order to the very best of our ability based on current inventory.
  - If flexible with regard to variety or type on certain items, please let us know as we are likely to have a suitable substitute.
- Our aim is to fulfill call-in orders SAME DAY and we will endeavor to meet this timeline. IF your order is non-time critical, just let us know at time of call-in and we will adjust your order's fulfillment, day and time of pick-up accordingly, based on your needs.
- NOTE: The Applecrest farm stand *will continue to be open to daily foot traffic and shopping based on normal business hours*. If you are comfortable to shop by coming in the market, please do. We are following cleaning protocols as defined by the health department and CDC for food safety, sanitation and social distancing. In market shopping allows you full access to all items, including newly arrived stock that may not be available when call-in orders are fulfilled. Doing so will also allow our staff more time to fill orders for those who cannot come in the market due to health precautions.
- LASTLY: Always feel free to give your Applecrest staff a heartfelt smile and thank-you. Like so many others during this challenging time, our team is right here on the front lines making heroic sacrifices and doing everything they can to serve their community. They deserve it!
